Proposal No. 5 Revision of Remuneration Intended to Grant Restricted Shares to Directors

The remuneration of directors of the Company consists of “fixed remuneration,” “short-term incentives (bonuses),” and “medium- to long-term incentives (stock-based remuneration).” Of these, “medium- to long-term incentives (stock-based remuneration)” consists of “stock delivery trust (performance-linked)*1” and “pre-delivery restricted stock-based remuneration*2,” and both of which are paid separately from the amount of remuneration for Directors of the Company (up to ¥420 million per year (however not including salaries for Directors who are also employees)) approved at the 111th Annual General Meeting of Shareholders held on June 29, 2006.

- ※1 Operated with contents finally revised at the 128th Annual General Meeting of Shareholders held on June 28, 2023.
- ※2 Approved at the 126th Annual General Meeting of Shareholders held on June 25, 2021 (this resolution for the approval shall be hereinafter referred to as the “previous resolution”) and introduced, and has been operated up to present.

With this proposal, the Company would like to request approval to increase the remuneration limit for “pre-delivery restricted stock-based remuneration” in place of “stock delivery trust (performance-linked)” as follows, as one part of the reexamination of the officer remuneration system, for the purpose of further strengthening incentives for sustainable improvement of the Company’s corporate value, and promoting further sharing of value between Directors and shareholders.

In other words, “pre-delivery restricted stock-based remuneration” is the plan in which the Company provides monetary remuneration claims to Directors (excluding non-executive Directors; hereinafter “Eligible Directors”) and issues the restricted shares (common shares of the Company, but transfer restrictions will be placed as per the agreement between the Company and the Directors as described below) to the Eligible Directors or disposes thereof, by receiving in-kind contribution of all monetary remuneration claims from the Eligible Directors (this remuneration system shall be hereinafter referred to as the “the proposed system”), and the total amount of monetary remuneration for granting restricted shares to the Eligible Directors based on this proposal shall be, as the amount believed to be appropriate for the purpose above, up to ¥40 million per year (in the previous resolution, the annual amount was approved to be up to ¥20 million).

In addition, the total number of common shares to be issued or disposed of as in-kind contribution of monetary remuneration claims shall be, as the number believed to be appropriate for the purpose above, up to 40,000 shares per year (however, from the date of resolution of this proposal onward, a stock split of the Company’s common stock (including allotment of the Company’s common stock without contribution) or in the event that shares are consolidated, the amount shall be adjusted according to the split ratio or consolidation ratio), and the amount to be paid-in per share shall be the closing price of the Company’s common stock on the Tokyo Stock Exchange on the business day prior to the date of each resolution by the Board of Directors (if the shares did not trade on that day, the closing price on the most recent trading day prior to that) (in the previous resolution, the annual amount was approved to be up to 20,000 shares). Specific timing of delivery and amount to be allotted shall be determined by the Board of Directors.

The determination policy for details of individual remuneration etc. for Directors has been established at the Board of Directors meeting held on March 25, 2024, as described in the Business Report (available in Japanese only), and since the details of this proposal are necessary and reasonable to pay remuneration in line with the policy, the details of this proposal are deemed to be appropriate.

If this proposal is approved as originally proposed, the remuneration limit pertaining to “stock delivery trust (performance-linked)” will be abolished (Note).

If Proposal No. 2 “Election of 7 Directors” is approved as originally proposed, the number of the Eligible Directors will be four.

In the issuance or disposal of the Company’s common stock under this proposal, the Company and the Eligible Directors shall conclude a share allotment agreement with transfer restrictions (hereinafter the “Allotment Agreement”) including the details of “reference” in this proposal. The details have not been changed from those approved in the previous resolution.

Note: “Stock delivery trust (performance-linked)” is a system in which a trust which the Company established by making a financial contribution acquires the Company shares, and delivers the Company shares to each Director equivalent to the number of points the Company granted to each Director according to the achievement rate of performance targets, and if this proposal is approved as originally proposed, thereafter monetary contributions will not be made to fund the acquisition of the Company shares and no new points will be granted as compensation for execution of duties after conclusion of this Annual General Meeting of Shareholders. Furthermore, even if this proposal is approved as originally proposed, new points may be awarded as compensation for execution of duties during the period prior to the conclusion of this Annual General Meeting of Shareholders. In addition, since the delivery of the Company shares corresponding to the number of points granted is, in principle, to be made at the time of each Director’s retirement, even after this remuneration limit is abolished, the shares will be delivered corresponding to the number of points already granted (as conventionally, at the time of each Director’s retirement, in principle). “Stock delivery trust (performance-linked)” has also been introduced for executive officers who have concluded a delegation contract with the Company, and if this proposal is approved as originally proposed, the Company plans to abolish the system for executive officers as well.

(4) Treatment in case of reorganization, etc.

they will be managed in dedicated accounts opened by the Eligible Directors at a securities company specified by the Company.
